

Can / Tube / Box / Packaging Mock-up User Guide

- Editing Smart Object

1. Double click on the layer (Smart Object), you want to edit.
 2. Photoshop will open a new document in a new window.
- Insert your image into, hide or delete an old layer that was there before and click on "file", "save" or Ctrl+S (for PC) or Cmd+S (for Mac). Done! Very fast & easy.

Thank you for your purchase!
